

## **Our Mission**

Kajira Token's mission is to provide accessible, comprehensive, and easily transferable tokens in online roleplay. As it is sometimes against TOS for some online games to use their main currency to deal in certain things like slave trading, slave auctions, prisoner releases, etc.. Kajira token is the perfect fungible cryptocurrency for all to use. From tipping kajira's coin boxes. paying an assassins ransom, or trading with Panthers.

## **Our Vision**

We envision a community where ALL Gorean Roleplay is empowered to live healthy, enriched and stable lives like what the Counter Earth series intended it to be with a usable currency between all cross platform Gorean Roleplay cities.

## **Our Values**

Kajira Token's Administrators identified key core values for our Council that guide our work with fellow by the books role players, each other, and our community friends:

Honour and Steel!
